

## METEOROLOGICAL EQUIPMENT

### ED-270 Barometric Pressure Sensor

#### FEATURES

- 800...1100 hPa measurement
- Output 0...5VDC
- Temperature compensated and calibrated
- Fast response time
- Long term stability
- LED-indication for Supply Voltage
- 12...24VDC Supply Voltage
- 11-Pole PLUG-IN Module

#### APPLICATIONS

- Research and Scientific measurements
- Wind Farms
- Environmental monitoring
- Agriculture - Industry - Avionic
- Meteorological Stations

#### TECHNICAL CHARACTERISTICS

ED-270 Barometric Sensor is designed for use at meteorological and industrial equipment. The Pressure Sensor is internal temperature compensated and calibrated for high precision.

At the front of the module is mounted a 6 mm Tube inlet to the Pressure Sensor. This has to be connected through an air tube and to the surroundings outside, if ventilation is installed with the effect of change in air pressure around the sensor.

The Pressure sensor is mounted into a 11-Pole PLUG-IN Module for easy installation in customer applications.

## **TECHNICAL SPECIFICATIONS FOR ED-270 Barometric Pressure Sensor**

**Measuring Range**  
800 - 1100 hPa

**Operating Temperature**  
-40 to +60°C

**Non-linearity**  
0.005 %FSO (typ.)  
0.1 %FSO (max.)

**Humidity Limits**  
Pressure inlets only      0...100%

**Temperature stability**  
+/- 0.5 hPa (-10°C...+60°C)

**Mechanical Specifications**  
Height      75mm  
Width      37mm  
Depth      73mm  
Weight      97g

**Long term stability**  
0.1 %FSO/year

**Accessories included**  
11-Pole Socket for DIN-rail mounting

**Response time**  
1 mS for 10% to 90%

**EU Declaration of Conformity**  
EN61000-6-3 Emission  
EN61000-6-2 Immunity

**Output Signal**  
0...5VDC for 800...1100 hPa

**Warranty**  
One Year against faulty materials  
or workmanship.

**Output load maximum**  
Source 20mA  
Sink 10mA

**Maintenance**  
None

**Power Indication**  
3mm LED Red

**Calibration Report**  
(To follow)

**Supply Voltage**  
12...24 VDC +/- 15%

**Power Consumption**  
Max. 11mA (no load)

**Electrical Connections**      11-Pole Plug

Terminal 1:	Output GND
Terminal 2:	Output V+
Terminal 3:	NC
Terminal 4:	NC
Terminal 5:	NC
Terminal 6:	NC
Terminal 7:	NC
Terminal 8:	NC
Terminal 9:	+ 24 VDC
Terminal 10:	NC
Terminal 11:	Supply GND
